

www.ecndt2018.com

MAIN TOPICS

- Additive Manufacturing and Semi-finished Products
- NDE & NDT of Civil Infrastructure Systems and Materials
- Cultural Heritage
- Transportation, Railway and Automotive
- Aerospace
- Nuclear Applications
- Oil and Gas
- Energy Generation
- NDE of Composites
- Robotic and Automation
- Structural Health Monitoring
Reliability and Statistics
- Qualification, Certification, Standards and Training
- Materials Characterization (NDC)
- Guided Waves
- Surface Methods (MPI & PT)
- Laser Ultrasonics and EMAT
- Ultrasonic Phased Arrays
- UT Microstructural Scattering
- Nonlinear Ultrasonics
- Eddy Current
- Sensor Concepts
- Thermography and Thermosonics
- Microwave, Terahertz, and Infrared NDE
- X-ray, CT, and Radiographic Methods
- Modelling and Data Processing
- Imaging

PRELIMINARY SCHEDULE

	MORNING	AFTERNOON	EVENING
Saturday	Meetings		
Sunday	Registration, Booth building, Meetings		
Monday	Registration Opening	Parallell sessions, Exhibition	Poster evening Welcome party
Tuesday	Parallel sessions, Exhibition		
Wednesday	Parallel sessions, Exhibition		Gala dinner
Thursday	Parallel sessions, Exhibition		
Friday	Parallel sessions	Closing ceremony Dismantling, closing

12th ECNDT
GOTHENBURG-SWEDEN-2018

12th European Conference on Non-Destructive Testing

Swedish Exhibition & Congress Center, June 11-15, 2018

»» A thriving cosmopolitan coastal city renowned for innovation and invention.«

WELCOME TO GOTHENBURG

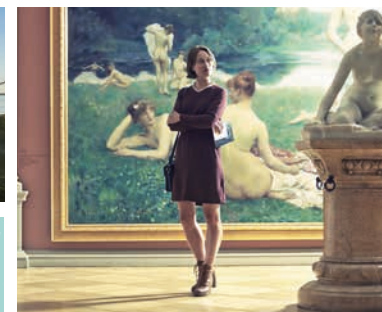

It is with great pleasure I invite you to the 12th European Conference on Non-Destructive Testing in Gothenburg, Sweden, June 11-15, 2018.

Basic science and clinical research will be presented by invited speakers, free papers, poster sessions, discussion forums and an exciting exhibition. All arranged by the Nordic cooperation.

The Swedish Exhibition & Congress Center is, with its in-house hotel Gothia Towers, located right in the city center making it easy to walk basically everywhere.

Gothenburg is an old harbour city located on the Swedish west coast. Founded almost 400 years ago the city blends a distinct feeling of charm with the pulse of modern urban life. In less than 30 minutes from the downtown area you'll be on a ferry to explore the tranquil archipelago. The city is filled with flourishing gardens, historic sites and buildings, beautiful churches and magnificent museums eg. the Museum of Art with three stars in the Michelin Green Guide Scandinavia. The tram-rattled streets are lined with cosy cafés and restaurants - seven are even presented with a Guide Michelin star.

Looking forward to seeing you in Gothenburg!

Peter Merck, President Swedish society for nondestructive testing
